Extension answer

Highlighted research **evidence** with context and $E = mc^2$.

A separate passage repeats evidence with context but has intentionally different surrounding text.

> Preserve the evidence boundary.

- First finding
- Second finding
  - Nested evidence

Measure	Result
Accuracy	97%
Latency	42 ms

```
def result():
    return "searchable"
```

$$\int_0^1 x^2 \, dx = \frac{1}{3}$$

Long-form research paragraph 1. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 2. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 3. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 4. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 5. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 6. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 7. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 8. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 9. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 10. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 11. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 12. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 13. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 14. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 15. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 16. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 17. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 18. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 19. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 20. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 21. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 22. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 23. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 24. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 25. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 26. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 27. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 28. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 29. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 30. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 31. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 32. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 33. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.

Long-form research paragraph 34. This paragraph verifies pagination, searchable text, selection, and stable local export without including any private conversation data.
